*From a Graduate of the* **SCHOLARS PROGRAM**

**What was the deciding factor that made you apply for NAPI's Scholars Program?**

*I decided to apply for NAPI's Scholars Program when I saw how much financial assistance will be provided each semester. Also, the summer and winter internships would help me gain experience in the field of engineering.*

**What was the most beneficial aspect of your participation in the Scholars Program?**

*The most beneficial aspect of the Scholar Program is the the financial assistance. Being in the scholars program and having other scholarships, I was able to pay for the for my tuition and living expenses without having a job.*

**What was the best memory you've had in being a Scholars Intern?**

*The best memory I had being an Scholars Intern was going on training. As a Scholars Intern I went to training in San Luis Obispo, CA and Logan, UT.*

**How did being a Scholars Intern help you in your studies?**

*From being a Scholars Intern I was able to apply real world experience in my classes.*

**How did being a Scholars Intern help you in your career?**

*Being a Scholars Intern helped me in my career by providing me with a job at NAPI after graduation. I will be gaining work experience from NAPI which will help me meet the required years of work experience for other jobs.*

**Would you recommend this program to family or friends attending NMSU?**

*Yes, the Scholars program provided me with the necessary support to pursue my post secondary education.*
