

POSITION DESCRIPTION

JOB TITLE:	Engineer	JOB CODE:		PAY GRADE:	PR
DEPARTMENT:	Technical Services	PAY STATUS:		Full Time / Hourly	
REPORTS TO:	Technical Services Manager	REGULAR/SEASONAL:		Regular	
APPROVED BY:	<i>Bentley & John</i> , Human Resources Manager	DATE APPROVED:		9/01/2017	

I. POSITION FUNCTION SUMMARY:

Under the direction of the Technical Services Manager, the Engineer plans, designs, and oversees construction and maintenance, and assists in overseeing heavy equipment operators and laborers, ensuring proper policy and procedures are followed according to NAPI farm operations.

II. ESSENTIAL FUNCTIONS, DUTIES, AND RESPONSIBILITIES:

The following statements are essential functions of this position and not intended to be all-inclusive; rather, they are intended to describe the general nature and level of work to be performed. They are not to be construed as an exhaustive list of all responsibilities, duties and skills required of the incumbent, and an employee may be directed to perform other reasonably related job duties and responsibilities. NAPI reserves the right to revise or change the job duties and responsibilities as the need arises, based on business need, and this position description may be updated accordingly. This position description does not constitute a written or implied contract of employment.

General Duties & Responsibilities

1. Analyze survey reports, maps, drawings, blueprints, aerial photography, and other topographical or geologic data to plan projects.
2. Plan and design hydraulic systems and structures, following construction and engineering standards, using AutoCAD.
3. Compute load and grade requirements, water flow rates, and material stress factors to determine design specifications.
4. Inspect project sites to monitor progress and ensure conformance to design specification and safety standards.
5. Direct construction, operations, and maintenance activities at project sites.
6. Direct or participate in surveying to lay out installations and establish reference points, grades, and elevations to guide construction.
7. Estimate quantities and cost of materials, equipment, or labor to determine project feasibility.
8. Prepare or present public reports, such as bid proposals, environmental impact statements, and property and right-of-way descriptions.
9. Test soils and materials to determine the capability and strength of foundations, concrete, or steel.
10. Provide technical advice regarding design, construction, or program modifications and structural repairs to department personnel and management.
11. Evaluate and estimate the quality of heavy equipment for on-going projects.
12. Assist the Irrigation Department in designing and maintaining a standard collection of files such as sprinkler charts, irrigation system data, RTU, sprinkler packages, pressures, and flow rates.
13. Assist the farm operations with irrigation scheduling for high priority crops.
14. Assist and train crop managers and other potential personnel with data collection for weather stations and soil moisture equipment.

15. Assist in the design and implementation of new or redeveloped center pivot systems.
16. Plan, organize, coordinate, implement, direct, evaluate, and adjust the current Load Management Program.
17. Perform all facets of project in compliance with associated existing contracts, i.e.: NAPI/WAPA Firm Electric Service Contract, NAPI/WAPA Management Agreement Contract, NAPI/BIA/PNM Maintenance Contract, etc.

Other

18. Works collaboratively, cooperatively, and in coordination with fellow team members and with others in the organization, treats them with respect, courtesy and consideration, and shows understanding and the appropriate support of other team members to help get the job done.
19. Provides information, guidance and resources to diverse groups of customers, clients and others outside of the organization; treats them in a friendly manner with professionalism, helpfulness, respect, courtesy and consideration at all times regardless of circumstances.
20. Maintains regular, dependable attendance and punctuality, and physical presence at the assigned worksite; must interact directly with people or objects at the worksite on a regular basis. Communications technology may, for certain tasks and under certain circumstances, enable an employee to effectively perform some of the work-related duties from home on a temporary basis.
21. Complies with all applicable environmental health and safety policies, procedures and work rules, giving maximum effort to performing job functions in a manner that protects the health and safety of the incumbent, co-workers, and the general public
22. Performs other duties as assigned and which are deemed necessary or desirable by NAPI.

III. POSITION AUTHORITIES AND ACCOUNTABILITIES:

General:

Position has a high level of line responsibility and high-level authority to make independent decisions over an assigned department or function. A person in this position has a high level of responsibility for a key operation or function.

Results of Action:

Decisions will have a high degree of impact on operations or services. Errors may result in significant disruption of operations or services or damage to operational activities. Errors in accuracy, judgment, tact or communication could result in a loss of productivity, and a significant loss of credibility and potential income for the organization. Failure to establish and monitor work schedules for the Department will result in an inability to meet deadlines and will delay the completion of records and other projects.

Budgetary & Financial Resources Accountability:

Position has moderate level of accountability for budgetary or financial decisions, and decisions will have a high degree impact on resource utilization within NAPI; responsible for a moderate level of impact on an operating budget for the Department;

Equipment/Material Management & Accountability:

Position has a high level of responsibility for equipment, material, or supplies; proper utilization is required plus accountability for first-echelon maintenance may be required; minimal authority and accountability for purchase within strict policy guidelines may be present.

Confidential and Sensitive Information:

- Incumbent has a high level of access to sensitive and proprietary company data, including but not limited to services, legal and financial data, and an essential job result is the maintenance of a high level of confidentiality of the information processed by the employee.
- Incumbent has a minimal level of access to personal and professional data regarding individual employees and their families, and to personal data regarding customers/clients/members and their families, and must comply with the Fair and Accurate Credit Transactions Act (FACTA) to keep that data secure and private.

- Incumbent has no access to health data of employees and their families, and to health data of customers/clients/members and their families, and must comply with the Health Insurance Portability and Accountability Act (HIPAA), to keep that data secure and private.

Independence of Action; Supervision Received:

The Engineer works under general supervision of the Technical Services Manager. Employee performs high level, complex project management work, and performs a high level of analysis and problem-solving with a high degree of independence and discretion.

Supervision Exercised:

The Engineer is responsible for own work and has no supervisory authority or responsibility, although the Engineer may have functional authority over specific projects or areas of responsibility as specified in this Job Description or otherwise delegated by the Technical Services Manager.

IV. POSITION QUALIFICATIONS AND REQUIREMENTS:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and/or ability required for the position, but is not a comprehensive list. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and Experience:

Required:

- Bachelor's degree from an accredited four-year college or university in Agricultural Engineering, Civil Engineering, Mechanical Engineering, Water Resources Engineering or directly related discipline.
- Three (3) years progressive experience in engineering, project management, and administering contracts; three (3) years supervisory experience in an industrial environment.

Preferred:

- Master's degree from an accredited four-year college or university in Civil Engineering, Mechanical Engineering, or directly related discipline.

Substitution:

- Five (5) years of FLSA exempt-level experience in project management may be substituted for the Bachelor's degree requirement.

Navajo Preference:

Navajo preference will be applied in accordance with the Navajo Preference in Employment Act (NPEA), it is Navajo Agricultural Products Industry's ("NAPI") goal and intention to strictly adhere to the NEPA in all employment practices and hire qualified Navajo Personnel for all positions. Tribal sovereignty support and Navajo preference initiatives are mandatory.

Language Requirements:

Required:

Ability to read and write English in order to understand and interpret written procedures and technical manuals. This includes the ability to give and receive instructions in written and verbal forms and to effectively present information and respond to questions from vendors, contractors, supervisors and co-workers.

Preferred:

Bi-lingual (English/Navajo)

Shared Responsibilities:

As a requirement of their employment, all NAPI employees are expected and required to follow and adhere to the following job responsibilities:

- Support the mission, vision, values, and goals of Navajo Agricultural Products Industry.
- Support excellence in our customer service philosophy, and deliver excellent customer service both to internal and external customers.
- Adhere to all company policies and procedures.
- Follow all safety policies, guidelines, and work rules, and participate in trainings.
- Practice good stewardship of NAPI property and follow policy.
- Act in a professional manner at all times.
- Function from INTEGRITY, HONESTY, and LOYALTY in all activities concerning NAPI.
- Follow the current NAPI Strategic Plan initiatives.
- Maintain and support a team environment within the workgroup, and with other departments.
- Champion NAPI in the community.

Core Competencies:

Performs the essential functions and elements of this position competently, demonstrating adequate progress throughout the course of the introductory period of employment and continuing throughout employment with NAPI. A variety of personal competencies need to be demonstrated by everyone at NAPI, and include but are not limited to:

- **Quality/Compliance:** Achieving a standard of excellence with our work processes and outcomes, honoring NAPI policies and all regulatory requirements.
- **Customer focus:** Striving for high customer satisfaction, going out of our way to be helpful and pleasant, making it as easy as possible on the customer or client, rather than on self, department, or organization.
- **Communication:** Balancing listening and talking, speaking and writing clearly and accurately, influencing others, keeping others informed.
- **Collegiality:** Being helpful, respectful, approachable, and team oriented, building strong working relationships and a positive work environment.
- **Initiative:** Taking ownership of our work, doing what is needed without being asked, following through
- **Efficiency and Continuous Improvement:** Planning ahead, managing time well, being on time, being cost conscious, thinking of better ways to do things
- **Coachability:** Being receptive to feedback, willing to learn, embracing continuous improvement
- **Safety:** Comply with and actively support all workplace safety policies and practices.
- **Team Player:** able to work collaboratively with others in the organization, and to work well with diverse groups of people and gain and maintain respect of others, both inside and outside of NAPI.

Knowledge, Skills and Abilities:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required to perform the essential functions of the position, but are not a comprehensive list:

- Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.
- Knowledge of principles and procedures for personnel recruitment, selection, training, compensation and benefits, personnel information systems, and be familiar with the Navajo Preference in Employment Act.
- Knowledge in basic education and training to include principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.
- Knowledge of the practical application of engineering science and technology.
- Knowledge of accounting, budgeting marketing, negotiation.

- Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.
